

FROM THE *Heart*

Iowa CareGivers *From the Heart* Award

As a small independent nonprofit, Iowa CareGivers (IC) relies on the help of many generous individuals and partners with numerous organizations throughout the year. The support ranges from donated printing and meeting space, and volunteers to advocacy and financial support. Without this assistance, we could not provide high quality programs, services, advocacy, and research that benefit direct care workers, their employers, and the Iowans they serve.

In the spring of 2010 the IC Board of Directors restructured its awards program by introducing the From the Heart Award. This award acknowledges the individuals and organizations that help IC achieve its mission.

Beginning January 2011, representatives of the Board, Direct Care Professional Leadership Council, and staff will, when possible, in person and on-site, present the *From the Heart* awards to deserving individuals and organizations.

All *From the Heart* award recipients are acknowledged at the IC annual conference.
