

# EveryStep to Open Dedicated Unit for Hospice Patients Who Have COVID-19 - **APRIL 27**

During the COVID-19 pandemic, EveryStep continues to offer care and support to our patients and clients. When we aren't able to meet with the people we serve in person, we have adapted to support and educate clients by phone, email, mail and through creative solutions.

Also, EveryStep's hospice and home care teams continue to visit and care for patients and their families. When patients facing the end of life aren't able to live and die at home, we continue to support them at our Kavanagh House on 56th Street and at Greater Regional Hospice Home in Creston.

*We also care for patients who have COVID-19. **And on Monday, April 27, EveryStep will open a dedicated unit for hospice patients who have COVID-19.***

The **EveryStep Hospice COVID-19 Unit** is located in the Glazer-Burt Wing at EveryStep's Bright Kavanagh Center, 3000 Easton Blvd., in Des Moines. *The six-room, fully-contained unit will be exclusively available to hospice patients with COVID-19 who need 24/7 care.*

If the organizations or programs you work with serve people who are facing end-of-life illness, are diagnosed with COVID-19 and need 24/7 care, our EveryStep Hospice COVID-19 Unit offers a safe, home-like option in a beautiful setting.

**Please contact EveryStep Hospice at 515-333-5800 with questions.** All patients are screened at admission to determine if special cares and protections should go in place for treating COVID-19 – either in the comfort of their own homes, or in ours. Thank you.
